

## Song of the Benjai

The most powerful emotion in our reality is LOVE. The most formidable human instinct is the sexual drive. Some unions are conceived in Heaven; some are devised in hell. Kyate, Master of the Deis Warriors, has been deployed by the Galactic Council of Deis to command the Deis fleet and protect the carrier of a special gene. The entire cosmos waits in spiritual anticipation for the day that the remaining Benjai chooses a mate, bears children, and carries on the Crionnachtian aspiration of creating a Heaven on Earth, directed by the Council of Deis (a galactic council of high spiritual beings) Kyate, Master of the Deis Warriors, and spiritual teacher in his own right, had been deployed by the Galactic Council of Deis to command the Deis fleet and protect the carrier of the Benjai seed. The Province of Ulonica, on the planet Earth, was under siege. The Alicupions and the Drothuarrians were battling for control of the planet, by securing the only pure Benjai DNA remaining -- The Princess Zeidra. Kyate was first a spiritual master; and secondly he was a warrior monk; but his true identity was known only to one mortal. Kyate's passionate obsession with Zeidra is nearly his ruination; and he almost destroys her in the process.
