

Old Haunts, a London City Novel

Jack Worthingtons life sucks. An old lady haunts him, his cash well is dry, and hes on the edge of losing all hope. So naturally, when he tries to do something good, fate rewards him by putting a bounty out on his life. Knowing that his days--or hours--are numbered, he races to forestall his inevitable death sentence, but in his travels unwittingly stumbles upon a potential catastrophe in the making. Awesome. Now he has to figure out why the ghosts of London City are sowing fear and paranoia into the minds of police and ordinary citizens, and what it all has to do with the anniversary of the infamous citywide riots that occurred one year ago to the day. His search eventually leads him to a haven for the citys underworld denizens, where he must face a vampire with whom he shares a terrible link to the past, all while trying to stay alive just long enough to avert the apocalypse. Some days saving the world kinda sucks.
