

## Consciously Creating Circumstances

This is a powerful how-to book on improving your mind and body, aligning yourself with nature's harmony, and living a happier and better life. The wisdom employed in these teachings comes from the school of Rosicrucianism, a mystical organization that has been around for centuries. This book will show you how to use the source of your power, achieve desires, use the law of attraction, uplift your basic attitude, improve concentration, control your thoughts, and achieve health and wealth. A highly recommended classic.
