

A Dream of John Ball

Dream of John Ball (1888) is a novel by English author William Morris about the Great Revolt of 1381, conventionally, but incorrectly (few of the participants were actual peasants), called the Peasants Revolt. It features the rebel priest John Ball, who was accused of being a Lollard but was really an early Leveller, the name given in the 17th century for what are today called socialists. John Ball is famed for his question When Adam delved and Eve span, who was then the gentleman? Morris draws on Froissart for information on the fourteenth century,[1] but has a different attitude towards the revolting peasants from the chronicler who, Sir Walter Scott once remarked, had marvelous little sympathy for the villain churls. Morris was also aware of interpretations of the Peasants Revolt as representing a socialist tradition. In 1884 he had written an article in which he stated that we need make no mistake about the cause for which Wat Tyler and his worthier associate John Ball fell; they were fighting against the fleecing then in fashion, viz.; serfdom or villeinage, which was already beginning to wane before the advance of the industrial guilds. The novel describes a dream and time travel encounter between the medieval and modern worlds, thus contrasting the ethics of medieval and contemporary culture. A time-traveller tells Ball of the decline of feudalism and the rise of the Industrial Revolution. Ball realizes that in the nineteenth century his hopes for an egalitarian society have yet to be fulfilled. A parallel can be drawn with the novels close contemporary A Connecticut Yankee in King Arthurs Court (1889) by Mark Twain. Unlike Twains novel, which depicted early-Medieval England as a violent and chaotic Dark Age, Morris depicts the Middle Ages in a positive light, seeing it as a golden, if brief, period when peasants were prosperous and happy and guilds protected workers from exploitation.

This positive portrayal of the Medieval period is a recurring theme in Morris literary and artistic oeuvre, from the largely pastoral and craftsman based economies of the prose romances, to his similar dream vision of Britains utopian future, News from Nowhere (1889).
