

## A Modern Bestiary - Ars Poetastrica (Hesperus Classics - Poetry)

A collection of 16 sonnets about humans who are transformed into beasts (both real and imaginary), and vice versa, A Modern Bestiary is a new interpretation of the old bestiary tradition, which has fascinated generations of readers and writers alike, from the Middle Ages through to the Modern Age. A fierce invective against modern poetasters and bad poetry in general, Ars Poetastrica does not pretend to be a collection of precepts on good writing, but rather an impassioned exhortation towards a new Humanism in poetry. Alessandro Gallenzi lives and works in London, where he runs Hesperus Press, a small independent publisher devoted to the rediscovery of lesser-known works by the greatest European and American authors.
