

A Single Beam of Sunlight

Robert was born in Louisiana in 1982. Having lived a normal life, he and his family were upset when he had been diagnosed with a mental illness in 2003. However, spending six years in and out of mental institutions, he did not lose his faith, and his relationship with God was the biggest source of light during such a dark time in his life. A Single Beam of Sunlight is the culmination of the lessons of a faith that has been tried and tested through almost a decade of tribulation, showing primarily that when one believes even when times are tough, then their faith evolves, as does their heart.
