

Alternative Values: Poems & Paintings

Frieda Hughes poems and paintings reflect her early years in Devon and Yorkshire, and her later experiences when living in London, Australia, and most recently, Wales. From childhood, writing and painting have been the two driving forces behind her commitment to life. In 2002 Frieda Hughes wrote a summary of her life to age 45 in poems and a 45 panel abstract depicting the emotional landscape of her life. This was the beginning of a growing collaboration between her poetry and her artwork, which is now further realized in *Alternative Values*, which includes 60 full-color plates of both her abstract and figurative work.
