

Amphimates

Oliver had a simple life fishing was his passion. He embarks on a fishing trip with his friends, Jeff and Randall, that would take many turns and twists and prove to be deadly for some. The trio encounter creatures known as Amphimates. Oliver lives with his mother out West after a horrific childhood. His father had attempted murder in the past and has returned to finish what he started. Oliver has to survive more than just the creatures; he is in the fight for his life.
