

Take Her for a Ride

Its 1930. The stock market crashed. The Great Depression is beginning. Hollywood is starting to rot underneath its glamour and lights. Nobody knows this better than producer Paul Russell. He has to save a movie studio from financial ruin. All he has at his disposal are a stack of horror scripts, some old sets, and unknown actors. The Hollywood pecking order applies to people as much as studios. Actress Lillian Nelson learned this lesson shortly after arriving in Los Angeles. Although she is dating Paul, she refuses to let him give her parts at his studio. She wants to make it on her own. Her attempt to overcome obstacles in order to insert herself into the public's heart is the stuff dreams and nightmares are made of in Hollywood. James Cagney, Bela Lugosi, Boris Karloff, Louise Brooks, and Jack Warner act as your guides while Take Her for a Ride peels back the skin of Hollywood's most glamorous age to reveal a core of talented businessmen, competent directors, and radiant stars.
