

## ARMAGEDDONs SONG 1 STAND - TO

Volume 1 of a 5 Volume story, the best selling Armageddons Song series, now with map illustrations: Did the Cold War really end? No matter, it is about to get hot anyway. Espionage, subterfuge, corruption in high places and a nuclear plot are uncovered by a beautiful spy more used to shedding her clothes to discover secrets than she is of keeping them. Will duty bind her to silence or will conscience win her over? Stand-To is the first book in the Armageddons Song series and it puts you in the seat of a Sea Harrier dog fighting over the Pacific, in the control room of a submarine during a torpedo attack in the Atlantic, looking down the sights of a sniper rifle on the north German Plain, and at the side of a Russian paratrooper General who leads from the front. Encompassing not just a story from a US point of view but also through the eyes and deeds of the other combatants, on both sides of the conflict.
