

An American Kill (The Whicher Series Book 2)

John Whicher is a US Marshal, not long out of training - barely twelve months back from serving in the Persian Gulf war. In south Texas, hes working his first case when a multiple shooting on the US / Mexico border leaves five non-documented aliens and one American dead. The county decides to limit any inquest - moneys tight, deaths among illegals are notoriously hard to crack. But Whicher, in his first case, is not about to see justice denied. Who sets the limits, how are they defined? Will the truth really set a man free? Or can it push a man too far?
