

Duh...Money!: Stuff To Make You Financially Independent

Duh. . .Money! is an easy-to-read, practical guide to the stuff you want (and need) to know to become financially independent. As in totally stop relying on your parents or anyone else! The first few chapters get you thinking about your own values and attitudes to money. Based on what you learn about yourself, you can begin to prioritise what matters in your lifestyle--whether its going to university, buying a new smartphone, attending a concert, whatever. You will be able to figure out exactly how much money is coming in (after taxes, loan repayments, etc.) and HOW you want it to go out--because go out it will! No one saves everything. We all have to live, dont we? Youll learn about banks, credit cards, insurance, and even loans. Knowledge is power! The more you know about your options, the better your choices will be and the more money youll have to spend on the fun things in your life. Later in the book youll read about buying a car, renting a place to live (and how and with whom to share), and even when and how to buy a property. A critical thread in being able to buy things is your credit score. Youll find out how to get one and how to keep it clean so you can continue to live the lifestyle you want. There is even a discussion of how to avoid the financial pitfalls that have subtly trapped so many young people over the years. Finally, the last chapter includes interesting readings full of money tips. Because at the end of the day, whats financial independence all about? Duh. . .Money!
