

Before the Apocalypse, Haven Quest

In this second installment of the trilogy James and Ashley escape while agents of the New Order pursue them. Our heroes travel to a distant new home by sea, and by land as the powers of Terra Nova hunt them. They must hide from the penetrating search of Deep Units (commonly called UFOs) and not allow their new identities to be compromised. Unintended consequences, and collateral damage cast a cloud over their flight to freedom as they seek a haven where they will be safe from the power of the Cosmokrator. From outer space and ocean depths, the Cosmokrators Special Affairs Operatives work to establish their leader, Therion, as the sole ruler of all the peoples of Earth. James and Ashley realize that they must work to warn as many as possible of the veiled conspiracy to rule the world before it is too late.
