

# Diamonds, Pearls & Stones: Jewels of Wisdom for Young Women from Extraordinary Women of the World

Jennifer Read Hawthorne, beloved coauthor of the #1 New York Times best seller *Chicken Soup for the Woman's Soul*, and Barbara Warren Holden, interviewed young women on their biggest life challenges. They then sought the wisdom of experienced women to address these new century problems. The result is this exquisite book, offering eclectic wisdom from older women to their younger counterparts on a variety of life issues. When women reach certain rites of passage-going to college, getting married or having a baby-they become mindful of their mothers advice and come to appreciate the life experiences of more mature women. In fact, when interviewed by the authors, young women specifically expressed a desire for older mentors, so Hawthorne and Holden answered them through the words of society's most successful and wise women-mothers, doctors, writers, activists, therapists-and included inspiring advice from celebrities like Oprah Winfrey, Hilary Clinton, Janis Joplin and Barbara Walters. Some chapter topics include: Living in Your Body, Transforming Your Emotions & Trusting Your Feelings, Awakening Your Creativity, Discovering Your Destiny, Finding Your Tribe and Accessing Authentic Female Power.
