

Face in the Mirror: Daphne

Daphne is a twenty-six-year-old forensic artist. All her life, she had been a model child, a studious teenager, and as an adult, she quickly became one of the best in her field of expertise. Then soon after she accepted a new job offer, someone tries to kill her. When she is accused of murder herself, everything falls apart. She has three choices, stay and be punished for someone else's crime, run and lose everything, or fight back. As the events unfold, Daphne discovers something about herself and her past. Not only is she in physical danger, but she has to cope with the emotional rollercoaster these discoveries put her on.
