

c.2.2.: Anthology of short verse

c.2.2. is an anthology of short-verse poetry tackling themes such as loss of identity, poverty, racism, homelessness, unsentimental love, crime, punishment, in short, real life. Each poet is identified by a pen-name, there are no frills, lavender or lace in these pages, just honest, gritty and experimental verse that will hopefully make the reader sit up and take notice, get inspired and rethink the role of short-verse in not only the poetry world but also in society which is after all both subject and audience.
