

# ISO 630:1995, Structural steels - Plates, wide flats, bars, sections and profiles

Applies to steel plates with thicknesses of 3 mm and over, wide strips in coils with widths greater than or equal to 600 mm, and greater than 6 mm in thickness, wide flats, bars and hot-rolled sections generally used in the as-delivered condition and normally intended for bolted, riveted structures. This title may contain less than 24 pages of technical content.
