

Cat-e-Wampuss

What can I say that would make you want to spend your money on this E-book? Its got action, adventure, comedy, fashion, music, and romance of sorts, ok theres no a lot of romance but its funny. Whats it about? well its about the Goon Squad its their last big adventure, the end of a series that started with Overtime and included such classics as Psychic Vortex Elizabeth Medleys music video Nine Rings of Venus and many more. Even if youve never heard of the Goon Squad you may enjoy their crazy, madcap antics, and did I mention the songs by stars like Rusty Nail, Elizabeth Medley, Blind Onion the Cream Puffs Country sensation Larry Lomax the Wrecking Crew and Morphia featuring Joey Blaze and Chuck the fantastic spastic. Now I know what your thinking, not another lame @\$ musical or a concert show with one song after another, but its not like that, ok maybe its kind of like that but its different some how. Welcome to the world of the Goon Squad these guys or goons are way beyond insane, theyve never been know for their restraint and since this is their last gig, why would they start now? This is the Goon Squad coming un-glued, pulling out all the stops and going for broke, they dont just push the envelope they seal it, stamp it, and deliver it. This is where the rubber meets the road, this is where fashion starts to explode, Georgeo Bonton has the freakin Goon Squad modeling his new beachcomber line. Cat-eWampuss no you havent experienced anything like it before, only Pushbutton E-books would put something like this out, this is the Goon Squad saying goodbye the only way they know how, this is their swan song. This is the longest story Ive ever written, and its channeled, I know what your thinking thats all bunk, but Im telling you its not, when Im tuned up and writing I cant get the words down fast enough, sure theres some mistakes and it could be edited, but it was

fun to write, each session was a blast, I couldn't wait to see what they were gonna do next. And the songs, I'm putting my name on the line as a songwriter, this is my latest Artwork, a work play, some where between and novel and a movie script, Read the preview and if you don't like it oh well, but if you decide to pay the price then you too can say, I've been ganked by the Goon Squad
