

Nine Live Cat Tales: Book One: Cats Claw

WARNING: THIS IS A DANGEROUS JOURNEY AND IS NOT FOR THE FAINT OF HEART. READ AT YOUR OWN RISK! This is a tale of murder, love, betrayal, and deceit; and this is a tale of conquest. Sparks is led on a twisted path to clear himself of murder and bring those responsible to justice. Vigilante justice is his only way to expose the truth; the truth that has cursed him since this nightmare began. The only problem is that those who are responsible are above the law because they are the law. Hell do whatever it takes to clear his name even though hes been tagged as a psychopath and a murderer. His only hope is to find those responsible and flush them into the open; though, the odds are greatly against him. Just released from prison, Levi must clear his past before his past catches up and silences him for what he knows and what he did. He knows what hes up against; just not whos behind it, but hes devised a plan and a trap to find those who want what hes got and want him dead. Detective Brad Ryan is a man on a mission. Hes out for blood and justice, and he means to stop the rampage of a schizophrenic serial killer. Perhaps the cryptic messages hold the clue that will bring those responsible to justice. Ambitious and driven, he has vowed to track them down no matter the cost. Theres only one problem; hes dirty as sin. He has a chance to recover whats been lost and silence those who could do him harm. Three suspenseful tales that twist and turn as they come together into one epic adventure. Nine Live Cat Tales will have you scratching for more.
