

Power to Change - You Always Have a Choice

Power to Change You Always Have a Choice outlines and provides you with tools and insights to direct your life and achieve your dreams. The ideas in this book will change your life by changing how you look at your life. People from all walks of life have used the information in this book to achieve a better quality of life. Jim Jackson has coached professional athletes and soccer moms, entire college teams, the solitary golfer, high-profile entrepreneurs, and home-based sales persons. Among the points and strategies in this book, you'll also follow the journey of author Jim Jackson from his low point when he lived in a beat-up 68 Ford station wagon to discovering his path as an influential teacher, a successful author, and a sought-after public speaker. Jim's first lesson is this: You are exactly where you want to be right now. The gift of change rests in your hands right now. You own the power to live your life differently right now. The power to change starts with the understanding that you always have a choice. You may not like your current situation; you may feel like you were given an unfair disadvantage to succeed in life and to reach your vision. But, you will come to understand it is not what life has given you, it is what you do with what you have been blessed with. Discover how to take charge of your thoughts, how to train your self-talk. Your excitement to achieve your desired goals will only be matched by your high self-esteem. The choice is yours. If you read this book and implement the lessons, you are going to get the results you want or the reasons why you're not getting the results. Either way you are right where you want to be right now.
