

Computer Engineering and Networking: Proceedings of the 2013 International Conference on Computer Engineering and Network (CENet2013) (Lecture Notes in Electrical Engineering)

This book aims to examine innovation in the fields of computer engineering and networking. The book covers important emerging topics in computer engineering and networking, and it will help researchers and engineers improve their knowledge of state-of-art in related areas. The book presents papers from The Proceedings of the 2013 International Conference on Computer Engineering and Network (CENet2013) which was held on 20-21 July, in Shanghai, China.
