

Emerald Eyes

The Munroe sisters are essence stealers. Their gifter curse, depending on which one you askallows them to consume a mans essence through their alluring emerald eyes, purely for self-gratification. The death of their parents brings together the total opposites, Lacey and Kate. Lacey is innocent and kind. She wants to find love naturally, not steal it. Wild and self-indulgent Kate believes men exist solely to provide her physical pleasure. The twins have been estranged since Kate stole the man Lacey loved. Though their reunion brings up painful memories for Lacey, it helps her heal. She decides to let go of anger and find love again, which she soon does with a handsome Colorado rancher named Jack. The relationship eventually becomes strained, though the passion never does, because of the distance between Lacey's home in Texas and Jack's in Colorado. Will Lacey and Jack make their relationship work? How will Jack react once he knows about Lacey's power? Will the presence of another essence stealer in their lives affect the trust and love between them? Fans of the Fifty Shades and Twilight series will enjoy the erotic Emerald Eyes.
