

All the Winters That Have Been

Dane Corvin has returned to the Pacific Northwest to ease his dying uncle's last difficult days. And although he can't quit admit it to himself, he has come for another reason, a reason that has been pursuing him like a ghost for twenty years. For it has been that long since he last saw the young woman he knew as Helen Raven. No woman he has met or loved since then has ever erased her memory. In spite of their passion, Dane had betrayed her all those years ago. But he is a changed man now, one who knows the value of love and the power of second chances. This time, though, it is Helen who hides a secret--something that could untie the tow of them, or destroy them and the fragile lives they have so painstakingly pieced together from their shared and shattered past.
