

Dancing toward the Light

Foreword When Janet Caldwell first approached me to write the forward to her new book *Dancing toward the Light: The Journey Continues* which is a unique poetic rendering I was a bit apprehensive as I am a Metaphysical Practitioner specializing as a writer and lecturer in the metaphysical genre. However, after reading her work and reaching deep within myself, I was able to be reminded of how words are simply vehicles or a means-to-an-end, and it is how those words are used in order to properly convey the proper feeling tone which determines their eminence and quality. However, the tonality of a word has nothing whatsoever to do with genres or categories they simply convey tones and vibrations. So, regardless of the various fields and genres in which we specialize; words, feeling tones and passion, are all universal in nature and it is the meaning and proper usage of a word that helps convey the appropriate resonance in which to bind heart and mind together. With each step of our synchronized existences, we most assuredly dance in the direction of that divine and celestial light of immersion. Some of us are able to pause along the way just long enough to catch a glimpse and take notice of the pain, the lessons, the fragrances, the laughter the hypocrisy and the missed beats. In her beautiful voice of simplicity and poise, Janet Caldwell is able to bring many of those instances to the forefront in her delicious 3rd offering of *Dancing toward the Light: The Journey Continues*. With her unique phrasing and playful rhyme scheme, Janet Caldwell has captured the essence of expression in the most direct way. With pieces like; *The Call*, which beckons each of us to heed the eternal song within, or *My World*, which reminds us of our greatness untapped, she is able to provoke a deep and abiding introspection within the hearts of men. Each musing is tinged with a hint from the gods of our own true greatness. Not only

does Janet Caldwell speak of The Poetry of Gods, but she too serves as the goddess herself by exposing the Nasty Egos and reminding us of The Play called life we so fancifully buy into. From beginning to end, Janet Caldwell freely invites us to inter the far reaches of mind and self-reflection. This book will challenge you with questions like; What is it anyway? and then help you discover that the answer to such questions are generally right Under your Nose. This is a playful, yet poignant piece of artistry that everyone can enjoy. Open your mind to the musings of Janet Caldwell and know that in spite of your perceived woes, misconceptions, misunderstandings, mishaps, or missteps continue to dance toward the light. For the journey still continues. Namaste, Peter C. Rogers, D.D. Ph.D. Author The Ultimate Truth The Universal Truth 100 Disciplines www.drpeterrogers.com
