

## Dauids Dream

It is lonely at the top. What if a great leader could seek counsel from a soul mate in another era, across three millennia? King David dreams of a future where Jake Rose warps around the galaxy confronting threats to the very civilization the biblical David created. David dreams about the rivalry between Jake and his brother Sam, echoing clashes with Davids own brothers. The daring starship captain Sam and his cerebral brother Jake compete over women and power. The story opens in 2301 A.D. with the Rose brothers at a formal dinner in a futuristic New York City. Who is the dreamer?
