

Dichotomy: My Moses Stick

There is a constant hypothesis at work in this book that asserts that everything operates in dichotomy chaos and that there are always two extremes to everything. We live on a line between these extremes, and this tenuous line is in the form of a vibrating circle from beginning to end of life. The book points out how one endeavors to operate somewhere between many, many life dichotomy poles. The book seeks to answer questions and find ways to maneuver within a myriad of dichotomies. It shows middleground situations of choice, decision, and outcome and points out how life is a dichotomy-beset circle beginning at birth and ending at death. The book reveals how most human beings unknowingly attempt peaceful and spiritual balance between plaguing dichotomies. It illustrates how most everyone is seeking some kind of life purpose, be it small or large, be it on outer fringe or within steady middle of extreme poles.
