

Where Success Is Ailments Lie Beneath

You might say that the Recession was the catalyst for my PTSD repression! My emotions were frozen from my marriages oppression. The unscheduled time off gave my soul time to breathe. It gave me the opportunity to let PTSD be relieved. What was released was a two-sided sword that had been piercing my heart. The solitude and abandonment of those I held dear tore it apart. It was God in His infinite mercy that picked up the pieces. Even though my heart was mended you can still see the creases. It is only through spreading Jesus Word that I am cured. If He could do this for me, he can do it for you - rest assured! I opened my mind and soul up to surrender. Once I did, Christ became my defender! The veil of depression was lifted and inspiration exploded - unrestricted. What came next was the recreation of two books with my illustrations depicted. Now you are witnessing the third creation given from Divine inspiration. This book of poems has healing power released from Gods deliberation. Whats left to declare? Why, praise and prayer! That is the formula and the magnificent ingredient added to heal, is a grateful heart. Put yourself in Gods hands and your PTSD and sorrow are sure to depart!
