

## The Langsyne Chronicles Book II: Dragonsoar

Science Fiction Series A space epic for all time They didnt know why the Darian wanted them- wanted them dead, their world slowly destroyed. it didnt make sense, not to any of them. There were other worlds, other races- and the Darian Empire went after them too, but it wasnt the same- the Darian seemed to take a particular delight in chasing Travelers down, killing only a few of them and then leaving. Then when they thought the Darian were nowhere close, that they were safe for awhile, they always came back and a few more Travelers were killed, their ships destroyed. Yet one man was always spared- and he wondered to what purpose? What did the Darian want with him? The story continues--- YOU AND THE UNIVERSE WILL NEVER BE THE SAME!!
