

## Elevations or AGLA ON Dawning: A Book Of Etheric Psalm

Elevations is not just an ordinary book of poetry but an etheric book of psalms which loosens the fabric of corporality. AGLA is an acronym, which asserts the power of Adonai, The Higher Self in man and humanity- Ateh Geburah Le-Ollahm Adonai. ON is ancient Egyptian referring to the Power On High, God, or the Sun, giving life to everything below which corresponds to the human will situated in the heart. As one reads the text a gentle, powerful yet playful unfolding occurs revealing the true nature of the Oneness of All That Is, within humanity. It is this universal truth of life that the author wishes to share, so that with the unfolding of many individuals, we may return to the garden.
