

Essence: Poetry for Modern Stoics

Essence is a modern, poetic reflection on an ancient philosophy: Stoicism. A Greco-Roman philosophy that discouraged superstition, the Stoics recognized man's ultrasocial nature, and held personal felicity and tranquility to be the primary objective of life. This short collection of poems is ideal for readers who yearn to ponder profound ideas within conventional and clear verse. The world is saturated with poets obsessed about their feelings. We need poets interested in all humans. This collection is an attempt to capture the essence of Animal Man.
