

Feel It Real: 24 Hours to Total Life Transformation

Many books have been written on the Law of Attraction and creating the life of your dreams. What makes this book different? Well first of all, it was written by a self admitted failure! Thats right, I failed time after time in life. After 20 years of trying to Live My Dreams by using the Law of Attraction, I had just about given up. It was only when I realized that the Law of Attraction wasnt what I thought it was that my life started to turn around. You see, I had always thought that The Law of Attraction was a way to get what you wanted in life. What I realized is that the Law of Attraction doesnt explain how to get what you desire in life, it only explains how we attract the things in our lives to us. When I realized that, I knew that there was a missing piece of the puzzle. After years of study and research I discovered that missing piece. What I found out is that no matter how much positive thinking, visualization or affirmations you might do, if you dont clear your negative emotions and limiting beliefs, you will never get what you authentically desire. Getting clear is the key. By applying this new understanding and the techniques you will learn in this book, I was able to totally transform my thinking and my life! For the past 15 years I have used these techniques to help friends, family members and clients clear their negative emotions and beliefs. Once clear you will not only find yourself effortlessly attracting exactly what you need to accomplish your dreams, but you will also find yourself healthier and happier overall! Can you really transform your life in 24 hours? Yes you can! I know because I did it and so have hundreds of others. Here is just a few of the things you will learn from reading this book: How your thoughts create your reality. The illusion called time. A simple , yet powerful 4 step method to effortlessly attract your desires! Why The Law of Attraction is a myth! A little known ancient secret, used by some

of the most successful people in history!
