Excerpt from Doctor Syn: A Smuggler Tale of the Romney Marsh To Those who have small knowledge of Kent let me say that the fishing village of Dymchurch-under-the-wall lies on the south coast midway between two of the ancient Cinque ports, Romney and Hythe. In the days of George III, with Trafalgar still unfought, our coast watchmen swept with keen glasses this broad bend of the Channel; watched not for smugglers (for there was little in Dymchurch to attract the smuggler, with its flat coastline open all the way from Dover cliffs around Dungeness to Beachy Head), but for the French men-o-war. In spite of being perilously open to the dangers of the French coast, Dymchurch was a happy little village in those days - aye, and prosperous, too, for the Squire, Sir Antony Cobtree, though in his younger days a wild and reckless adventurer, a gambler and a duellist, had, of late years, resolved himself into a pattern Kentish squire, generous to the village, and so vastly popular.
