

Almost Human

Almost Human is a thriller where creatures with the enormous strength and power of a chimpanzee and the intelligence and size of a human are sought out and discovered in a remote compound in equatorial Africa. The special bond between trainers and their animals is central to the story. Drs. Ken Turner and Fred Savage follow rumors of chimp-human hybrids. The scientists want to study the hybrids but government operatives want to exploit them. The resulting conflicts threaten Turner and Savages research and their lives, as well as the lives of many others. Can they stop the murderous onslaught in time?
