

The Poetical Works of George Crabbe (Classic Reprint)

Excerpt from The Poetical Works of George Crabbe In this edition of Crabbes works, we have reproduced the text of the authors own edition, adding only the posthumous volume of Tales, practically left ready for publication by the poet, and the few poems gathered together under the titles Juvenilia and Occasional Poems, which are reprinted from his sons edition of 1834. It is true that some of these were condemned by Crabbe himself as unworthy to live, but they are already known to many readers, and could hardly be left out. The only notes are those made by Crabbe himself. The arrangement of the poems is chronological. For the biographical matter we are indebted to the Life by his son, prefixed to the edition of 1834, and to Mr. Aingers Life of Crabbe in the English Men of Letters edition.
