

The Grass is Green

The Grass is Green is a satire that attacks the institution of psychiatry, Americas obsession with normality, and the fabled one dose cure-all. The satire also attacks presidents, celebrities, established religions and a host of other targets, issues, and ills of society--all while simultaneously telling the story of Arthur Gray, a twenty-something man who just wants to know whats wrong with him. His search introduces the reader to a host of characters, all of them searching for answers and solutions just beyond their grasp.
