

# Nationalpark: Zone (German Edition)

Helmut Kohl hat recht behalten. Dieser nette Herr mit birnenförmigem Gesicht hatte dem Osten der Republik blühende Landschaften versprochen. Und es gibt sie tatsächlich. Ganze Landschaften blühen, besonders im Frühjahr. Die Bewohner sind jedoch, bis auf wenige Ausnahmen, verschwunden. Doch was macht man mit einem riesigen, nahezu menschenleeren Gebiet mitten im Herzen Europas. Ein Nationalpark ist eine super Idee. Alles grünt und blüht und findet seinen Weg zurück zur Natur. Doch hin und wieder liegen ein paar Leichen zwischen den wilden Narzissen. Und verschwinden wieder. Kommissar Kuno steht vor einem Rätsel. Was folgt, ist ein Techie-Endzeitroman, den man nicht ernst nehmen sollte.
