

# Hegel and Christian Theology: A Reading of the Lectures on the Philosophy of Religion

This is an analysis of the interpretation of Christian theology that is found in G. W. F. Hegel's Lectures on the Philosophy of Religion. Hodgson argues that these lectures are among the most valuable resources from the nineteenth century for theology as it faces the challenges of modernity and postmodernity. The author is also editing and translating the critical edition of the lectures, which are being published concurrently by Oxford University Press.
