

Tap Your Source

A guide to empower people to step beyond old patterns, old beliefs, and into their dreams. Tap Your Source is a guide to managing your way through those major Transitions in life where everything changes. The occasion may be losing your job, separating from a partner, death of a loved one whatever the trigger; it is time to reassess your life, what you are doing, and what you want. This book is a guide to help you get to the core of what you are all about. It has exercises to help you get to your source deep inside where your true self dwells. You are invited to consider the following: * How big a dream can I manifest? * Have I learned to harness the power of a positive strong belief? * How can I embrace my gifts? * Do I hold myself accountable for my dreams? What does it mean to harness the power of my intent? * Do I think of surrender as a negative term? * Am I walking my talk? This is not just a book; it is a complete course, complete with exercises, in managing your way through a major life transition. Leslie invites you to tap into your true potential.
