

## My Time In Limbo

My Time in Limbo is a numerous collection of short stories, poems, fictional essays and intricate styles of haiku that are completely out of the bounds of what is meant to be standardize. The ideas and format of these works were never meant to be put into a box of the norm, but to tear it down. The stories come straight out of left field. The essays border the line of wisdom and insanity, while juggling taboos. The poems destroy any logic of what a poem should be, and the haikus have been reinvented, twice. This book was never meant to be a book, but to be something quite extraordinary, but still an enigma.
