

# Unjustice

Every civilized country has some sort of written system in place that they use to promote as their system of justice! If you will notice on the front cover of this book the words just, justice, unjust, injustice, injustices and unjustice are randomly and crookedly placed on the page. There is a reason for this: you never know which one you are going to get! The court decisions are all over the place and you may as well have bought a lottery ticket. Justice and injustices are drawn from the lottery pool at random - if you are not one of the affluent or well educated. If you are wealthy or well educated, or, if you are a relative or friend of the judge, you most likely will get justice. On the back cover you will notice that the Supreme Court building is upside down and crooked. There is a reason for this, too: unjustice has gotten to the point that justice is totally upside down in this country.
