

ISO 6808:1999, Plastics hoses and hose assemblies for suction and low-pressure discharge of petroleum liquids - Specification

This International Standard specifies the requirements for two types of polymer-reinforced thermoplastics hose and hose assembly for suction and discharge applications with kerosene, heating oil, diesel fuel and lubricating oils in the temperature range 10 °C to + 45 °C. This title may contain less than 24 pages of technical content.
