

Dollop Of Custard

Hi Readers, this book is a collection of rhymes that invaded my head in six weeks. So I make my apologies in advance. I am no poet laureate, just a bloke who wants to share his views via some social observations that I have made. Some come from my heart, some from my imagination and some from what I have seen or what I believe happens in the society in which we live. I do not expect you to love it but please try to embrace the sentiment as it was intended. So dig in and enjoy A Dollop Of Custard.
