

You Were Destined To Be Great (Becoming Great) (Volume 2)

Although you may not get this message from many quarters, it is your Destiny to become Great in some aspects of your life, if not to become Great as a person who has completed their human journey along The Way towards their Divine Maker. By becoming Great, we change the universe in two ways, one involving fields of energy and another in the form of fields of pure information (something that does not involve energy directly). The energy fields are temporary and drop of rapidly with distance, but the fields of pure information are eternal, everywhere in the universe and available to everyone, maybe even to everything as well. It is this information field that makes you so important to the universe. If you do not become as Great as you could be, the universe will not be as great as it could be. Since there is only ever going to be one you (although you will have many bodies over time), it is important that you do choose to become Great as soon as you understand this reality, within this marvelous universe of ours. Others may tell you that trying to become Great is a selfish thing to do; the Truth is that it is really the opposite your becoming truly Great is a very self-less choice. Not everything that those who are too fearful, or lazy, to go for greatness, will be true. In fact it will almost never be even close to True in a greater sense. You will also have to come to grips with the reality that not many of those around you, or who try to command influence over you, will be supportive of you becoming Great in whatever you choose to do. This is not really about you at all, but about their own states of Fear and self-loathing, the latter existing because they have not chosen to become Great themselves. We are spiritual beings, made in the image of God, who is essentially spirit, but infinite in every way. All that exists is because God made, and is making, it so. Since you were made in the image of God, you have very few

limitations, but again few have, or will ever, tell you that important bit of information. In this short book you will be brought into contact with many bits of information that have developed over the ages, some that have been resurrected, although others are very new indeed. We are not really much about the mass part of energy, and the part of us that is more information-based is only starting to be understood in most of the world. Almost everything that you have been taught about limits is false, usually in a major way, and what you have been taught may be the very opposite of what is true. Once you make the Intention to become Great, however, your whole apparent universe is going to start to change. Even when your choice is to be Great in a very specific part of your life, you will likely start to become a Great spiritual being as well. Since humans are starting to evolve from a thinking but fearful Homo sapiens, into a loving Homo spiritus, and because so many have already moved on to become Great in loving ways, you live in very interesting times indeed. What is possible for you, in a few years of Intended and intensive growth, was possible to others only in many decades of much more intense work. Choose to become Great at whatever wells up from within you and you, other humans, and the universe as a whole, will be the better for it. This wee book is intended to start you on your way!
