

## The Poachers Daughter

Kate was known as the poachers daughter in the village of Middleacre where she and her pa lived in a broken down tinkers caravan on the common. They all knew she was not the poachers real child, though few knew the mystery of how she came to be living with him. Kate herself was not sure; Josiah had told her he had found her abandoned as a baby, but was Josiah telling the truth? He loved her and she was devoted to him and she did not question what he said until two mysterious men came to the village on the same day, both handsome, strong, self-possessed men, but so very different in every other way. Something was happening in the village, something important, something that would affect all their lives
