

Lucy The Elephant

Welcome the debut novel of C.M. Stassel. The story of an elephant named Lucy who swims across an entire ocean in search of the man she loves. She makes it. Her story as told by a delusional man, Humphrey. He is smart, handsome, wealthy, and determined, but lost in his own ocean of problems, brought on by his search for the woman he loves. The prophecy of his death is offered at onset, and its fulfillment only draws closer as his story becomes more and more intertwined with Lucys. He does not make it.
