

## Metaphysics and Transcendence (Routledge Studies in Religion)

Metaphysics and Transcendence takes up this story for the future. Arthur Gibson presents a new metaphysics with a genealogy based on counter-intuition and locates counter-intuition and complexity at the foundations of truth. Having devised fresh concepts on the basis of the new frontiers of science and philosophy, the author presents original explanations of transcendence arguing that just as we need revolutionary and original ways of depicting the physical world, so it is with such topics as God, miracles, the resurrection, the source and identity of consciousness and reason itself.
