

# The Crater

James Fenimore Cooper was a 19th century writer known for his historical romances and stories of the sea. His Leatherstocking tales including the novel *The Last of the Mohicans* are his best-known works. *The Crater: Or, Vulcans Peak, a Tale of the Pacific* was first published in 1847. A summary from Wikipedia reads. From merely surviving the loss of his shipmates and the embayment of his ship within *The Reef*, protagonist and role-model Mark Woolston goes on to thrive by his own industry. Following a regional volcanic upheaval which raises new land, he finds a similarly industrious and thriving colony after escaping from, then returning to, *The Reef*. The outnumbered colonists must defend their new homes and possessions against natives who covet the new land.
