

Free My Heart

Free My Heart is a dramatic, urban contemporary novel, which follows Sudi Amor throughout an emotional, roller coaster-filled life. The story unfolds with the union of her parents who are a biracial couple living in the South during the 1960s. The racism and child abuse Sudi endures ignites feelings of inner turmoil and self-hatred. Sudi looks for love from all the wrong people and begins a stream of self-destructive behavior, including teen-pregnancy. Sudi attempts to numb the heartache caused by date rape, child molestation and the demise of her own child by turning to drugs. Her addiction starts a downward spiral effect that causes Sudi's tolerance of domestic violence. Sudi journeys through the country in search of happiness. Eventually, the burden of her toxic decisions and the murder of her lover lead to Sudi's desire to free her heart. Ultimately, Sudi makes a permanent decision for her temporary problems.
