Excerpt from The Secret of the Sands, or the Water Lily and Her Crew, Vol. 1 of 2: A Nautical Novel The attention of the public has been directed, on more than one occasion within the last few years, to voyages of a more or less lengthy character, undertaken in craft of very small tonnage; and a great deal has been said and written concerning the foolhardiness of such undertakings. This, however, is more apparent than real, though much must necessarily depend, in such voyages, on the adventurers skill as a seaman and his nerve and self-possession in critical moments.
