

You are a Leader - A Journey Towards Enlightened Leadership

In *You are a Leader: A Journey Towards Enlightened Leadership*, author Joe Banda gives tangible weight to ten intangible qualities present in every leader. More importantly, Banda points out that these same intangibles are in each one of us. It is simply our choice to use them -- to be the leader we want to be -- for the betterment of ourselves and our world. Through historical and practical examples Banda points out that everyone has the same chance to become a leader. The only thing keeping us from becoming the best leader we can be is, in reality, not believing that we can be one. By focusing on what truly matters, we can all learn to become the kind of leaders we wish we could be. Banda shows us how to focus on our emotions, passions, trust, and flexibility (among other traits) as we move into new leadership roles. Above all, Banda points out that -- to some degree -- leadership is an attainable goal for everyone. All we need to do is pay attention to those few key intangible traits.
